

K-LOVE is a wonderful family oriented and positive radio station that blesses my whole family everyday. As it is we are bombarded by a lot of crude humor and crude music every day, without the one and only positive radio station around, I can see the already dwindling community spirit even sink down further. K-LOVE is a station run by the listeners and they provide a wonderful service that not only uplifts the community physically but also their spirit.

K-LOVE has been an anchor for those who want to listen to clean radio programs / music without being bombarded by crude language and jokes, without being bombarded by advertisers ... K-LOVE is a station I would like to listen to relax after a tough day. Please please please do not push K-LOVE out of the air waves.

God Bless you!
